Presenters to Focus on Automated Informed Consent, Patient Education at the 2006 Veterans Affairs E-Health Conference & Exposition

ATLANTA, August 21, 2006 — Dialog Medical, the leading provider of informed consent and patient education systems for hospitals and physician practices, today announced that its iMedConsent™ application will be the focus of two poster presentations at the 2006 Veterans Affairs E-Health Conference & Exposition in Nashville, Tennessee.

- “Customizing iMedConsent Educational Materials to Improve Performance Measures”
Presenters: Ella Vinokur, MS, RN, NP-C and Rose Lester, MS, RN, VA New York Harbor Healthcare System
- “Nursing + Software = Patient Education”
Presenter: Charlotte Feldman, Fargo VA Medical Center

Poster hours are listed below:

- Monday, August 21: 6:00 - 8:00 pm
- Tuesday, August 22: Noon - 1:30 pm, 3:30 - 7:30 pm
- Wednesday, August 23: 10:15 - 10:45 am, noon - 1:30 pm, 5:00 - 6:30 pm
- Thursday, August 24: 10:00 am - 12:30 pm

Dialog Medical's iMedConsent application includes procedure-specific consent forms for more than two thousand medical and surgical procedures; patient education documents for thousands of diagnoses and treatments; and an extensive anatomical image gallery that allows the physician to annotate images and simplify complex topics for the patient. In addition, the application automates the completion of patient documentation ranging from HIPAA disclosures to advance directives, including the digital capture of signatures, paperless storage of signed documents and electronic notation in the patient's medical record.

“Automating and standardizing the informed consent process represents a critical patient safety and performance improvement opportunity for forward-thinking healthcare organizations like the Department of Veterans Affairs,” said Michael Burke, president of Dialog Medical. “We are honored that our VA clients want to share their positive iMedConsent experiences with their peers.”

About Dialog Medical
