Additional Notes

The web-based iMedConsent™ PE application is a web-based, Dialog-Medical hosted subscription service.

The web-based iMedConsent™ PE application is designed to function with Windows Internet Explorer versions 6, 7, and 8. Please check with Dialog Medical for compatibility with other browsers.

Each registered physician user receives unlimited access for all non-physician providers (e.g. nurses, nurse anesthetists, PAs, anesthesia technicians) associated with that registered physician user.

Existing Medical Protective Policyholders who are registered users of the iMedConsent™ PE application, and who paid list price for the application, are eligible for a 30% extension in the term of the remaining portion of their subscription upon request.

Use of the iMedConsent™ PE application is subject to Dialog Medical's End User License Agreement ("EULA") which is included with the application. Customer will not, nor assist others to, modify, disable or circumvent the EULA.

Sales tax may apply.
